DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-9 and 37, drawn to an accessory device (non-optical) for attachment to an optical probe, classified in class 600, subclass 127.
- II. Claims 10-18, 40 and 41, drawn to an attachment lens, classified in class 359, subclass 673.
- III. Claim 19, drawn to a fiber holder, classified in class 385, subclass 137.
- IV. Claims 20-24, drawn to a condition responsive indicating system, classified in class 340, subclass 573.1.
- V. Claims 25-36, 38 and 39, drawn to an electromagnetic diagnostic testing system, classified in class 600, subclass 407.

The inventions are distinct, each from the other because of the following reasons:

Inventions I, II, III, IV and V are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions all have different modes of operation (optical probe, attachment lens, condition responsive indicating system or electromagnetic diagnostic testing system) or have different functions (fiber holder).

Art Unit: 2873

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

A telephone call was made to Mr. William Haulbrook on June 19, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
